## DEW CLAW INDEX

MARCH 1964 - APRIL 1979

(Including some issues  
from 1953 and 1954)

### INTRODUCTION

There are good indications that "The Dew Claw" has been published, either as a newsletter or a bulletin since 1928 when the B.C.A. was founded. Issues prior to 1964 were brief, with copies run off on a mimeograph. Many were less than one page long and some had hand painted covers.

Through the years, as the files were transferred from one Secretary to another, the early issues were lost - if indeed any copies were even kept. The Club no longer has records of any kind prior to 1952.

The earliest issues known were donated to the B.C.A. by Mrs. Ernest Clark and Mrs. William Fletcher and include the September 1953 issue through several from 1954. From there the Dew Claw Library jumps to March 1964, when the bulletin was first printed, instead of mimeographed. The club copies from March '64 through February '69 are only Xerox copies and the April 1966 issue is missing. From the April 1969 issue, the list of copies is complete.

If anyone knows of or has any early issues and would permit the Club to copy them, or if anyone wished to donate any originals prior to February 1969, the contribution would be deeply appreciated. A complete library of the old issues would be an historic asset to the Club.

This index has been compiled for your information by Cindy Gray, Education Chairman and Diane McLeroth, Secretary and there are plans to update it annually. If sufficient interest is expressed in any of the articles, it may be possible to reprint them in "The Dew Claw". It also may be possible to run individual copies of other articles, which are of interest to only a few. For further information, please contact the Education Chairman. *"Everything in his history, his conformation, his moral qualities and in his physical aptitudes, designate the Briard as a working dog, a shepherd dog! It is in this direction that we should orient ALL efforts, of the breeders and of the specialized clubs -- TO CONSERVE AND IMPROVE -- ALL THE FINE QUALITIES OF OUR NOBLE FRENCH BREED. No dog is more worthy of this attention than the Briard."* Noel Wanlen, 1946
